

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Cancelled)
2. (Cancelled).
3. (Cancelled)
4. (Cancelled)
5. (Cancelled)
6. (Currently Amended) A medical device comprising:
an implantable structure;
trichostatin A, in thereapeutic dosages, releasably affixed to the implantable structure for the treatment of restenosis following vascular injury, the trichostatin A being incorporated into a basecoat polymeric material, the concentration of trichostatin A being in the range of about 5 nano molar to about ~~400~~ 40 nano molar;
rapamycin, in therapeutic dosages, releasably affixed to the implantable structure for the treatment of restenosis following vascular injury, the rapamycin being incorporated into the basecoat polymeric material the rapamycin and the trichostatin A potentinting each others effectiveness; and
a topcoat polymeric material affixed to the basecoat polymeric material to control the elution rate of the and the rapamycin, the

topcoat polymeric material and the basecoat polymeric material being immiscible polymeric materials, wherein the basecoat polymeric material includes a sixty/forty weight ratio of VDF:HFP and the topcoat comprises a four hundred ninety microgram BMA layer.

7. (Original) The medical device according to Claim 6, wherein the implantable structure comprises a stent.

8. (Original) The medical device according to Claim 6, wherein the implantable structure comprises a stent-graft.

9. (Cancelled)
